## TESOL Italy LOCAL GROUP FORMIA

ISTITUTO GEOMETRI TALLINI

COMPUTER LABORATORY

May 27<sup>th</sup>, 2013 from 3:00 to 5:00 p.m.

Esterina La Torre

### ***“Geometric Literature”***

#### **Theme:**

Using geometry while teaching literature is, perhaps, not a new concept. Geometry can help “to shape” our teaching to meet the needs of students that thanks to a simple organizer made up of squares, triangles, circles, learn how to identify important elements of an idea, clarify their thoughts and identify the various parts of a concept. Moreover, they learn to know how to outline a sequence of events in chronological order or succeed in the identification of the main elements of a story. By using "Geometric Literature" a teacher can transform boring activities of literature in new and challenging tasks; using shapes is also a way to organize minds and work, each teacher can create his/her own G.O. to enhance students' interest and participation.

**you are kindly invited!**

**The event is open to TESOL Italy members (teachers and principals). For those who are not TESOL Italy members for the current year, a free provisional membership will be issued (conditions will be explained onsite). All participants will receive a certificate of attendance.**

L'associazione Nazionale TESOL Italy (con i suoi gruppi locali) è riconosciuta *Ente qualificato alla formazione e all'aggiornamento per insegnanti di lingua inglese nelle scuole di ogni ordine e grado*-**Autorizzazione MIUR, Direttiva 90/2003 confermata con DM 05.07.2005, Prot.N°1227**
