OXFORD ACADEMY: Dictionary Skills

Specifically developed for secondary school teachers in Italy, the Oxford Dictionary Skills Academy is an engaging and interactive seminar that will help teach students to move beyond simple online dictionary skills, explaining how a good dictionary is an essential asset in the language learning process. Drawing upon material from both bilingual and monolingual dictionaries, the seminar will provide an overview of the reference materials, illustrating both print and digital benefits to help student autonomy and preparation for written and oral exams. The session will include practical examples, activities, demonstrations, and take-away ideas.
