QR CODES are becoming very popular, we can see people scanning them everywhere as they can contain a wealth of product information on packaging, as well as on ads, on leaflets etc. This talk-workshop will present some information about QR codes, how to create QR codes and analyse some activities about the use of QR codes in class. It is a useful way to motivate both teachers and students showing how technology and tools can be used in a creative way.

*The event is open to TESOL Italy members. For those who are not members for the current year, a free provisional membership will be issued (conditions will be explained on site by the local group coordinator). All participants will receive a certificate of attendance.*

TESOL Italy (con i suoi gruppi locali) è riconosciuta Ente qualificato alla formazione e all'aggiornamento per insegnanti di lingua inglese nelle scuole di ogni ordine e grado.
